Optometry/Occupational Therapy/Assistive Technology Services - 261 individuals with low vision received direct services which begin with comprehensive low vision assessments from our specially trained low vision optometrists. Intervention consists of training with prescribed adaptive devices, tools, and techniques to enhance independence and safety. Specialized training by our occupational therapists and assistive technology specialists allow clients to manage their homes, attend school and/or continue working. During home visits, our occupational therapists evaluate the client's living environment for potential safety hazards. With our clientele of 65% low to moderate in income level, we are able to reach a greatly underserved population in Colorado.
